Shaho® Hair Care Products

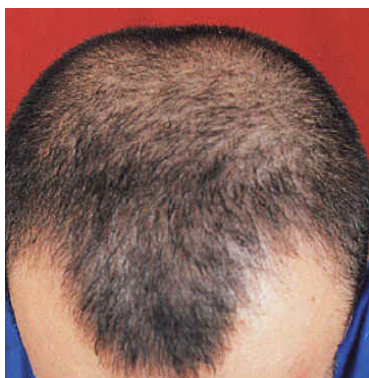

*** Are made from natural plant for treating skin and hair loss problems.**

This is achieved by the normalizing skin cells and the reactivation of hair roots. Suitable for many skin problems they specially promote hair re-growth and prevent itching head and dandruff etc.

- Suitable for use by men and women at all ages.
- Very effective treatment worldwide for preventing hair loss, greying hair and for promoting hair re-growth.
- Have passed medical (dermatological) tests in Germany and have no side effects.
- Have also passed microbiological analyses and been proved to contain no preservatives.
- Can be repeatedly used if necessary and cause no damage to human organism and the environment.
- Are produced from natural plants grown on the native soil of the Kurdistan Mountains with the help and co-operation of two German Companies, according to the laws and regulations of Europe with regard to the European quality control of natural cosmetics.
- Application for Shaho products was registered at the **DPMA** (German Patent Trade Market Office) on 21.12.2001 and **Patent Certificate** under the number 10163190 was received on 27.02.2004.
- Shaho products rights are reserved and protected by International Protection Rights in **WIPO** (THE WORLD INTELLECTUAL PROPERTY ORGANIZATION) since 19.12.2002 under the number PCT/DEO2/04670.
- **SHAHO PRODUCTS ARE TOTALLY NATURAL.**

Advantage of Shaho Products:

- Essentially beneficial in stopping all types of scalp hair loss caused by hereditary conditions, anxiety, alopecia, psoriasis, etc.
- Strengthens, regenerates and protects the natural colour of scalp hair and all types of body hair such as eyebrows, beard, moustaches, etc...
- Revival of the scalp and the removal of white spots, which are caused by advancing hair loss.
- Prevent the spread of alopecia, through all its stages and promote hair re-growth.
- Also treat Psoriasis of the scalp.
- Very easy to apply.

before using

after using

Shaho® Products:

- **Shaho A Hair Cream**
- **Shaho Hair Tonic**
- **Shaho Eyebrow Cream**
- **Shaho Shampoo**

SHAHO “A” Hair Cream: Prevents the hair loss in all stages, especially in more advanced stages (4, 5, 6 & 7). It is effective for vibrant-coloration, head skin dryness and against greying/whitening hair. Strengthens head hair, ladies eyebrow, men’s moustache and beard. Shaho A also promotes hair re-growth. Apply 3-5 times weekly.

SHAHO Hair Tonic: Used for stopping hair loss, dandruff, head itching and the re-greying of both men and women’s hair. It is also effective for re-growth, and vibrant – coloration of hair. For women it is used in all stages. In men it is more effective in less advanced stages of 1, 2 and 3. It does not entail the shaving or cutting of hair. For remedy only 2 bottles of 100 ml each are needed. Apply 3 times a week.

SHAHO Eyebrow: For more thickness/density, strengthen in a natural way and stopping greying hairs, use 15ml of Shaho Eyebrow Cream.

Shaho Shampoo
14,00 250ml: 12,- €

Shaho A Hair Cream
70,- € 30ml: 56,- €
115,- € 50ml: 89,- €

Shaho Hair Tonic
50,- € 100ml: 39,- €

Shaho Eyebrow Cream
18,- € 15ml: 16,- €

FOR WOMEN:

Hair: For ladies in general, **Shaho Hair Tonic** is most suitable and useful for stopping hair loss, greying/whitening. It is also effective for re-growth, and vibrant – coloration of hair and makes hair look shinier and thicker. For this remedy, one bottle may be sufficient. However, we recommend the use of two. Apply 3 times a week. **Please do not use Shaho products on parts of body where you do not wish to strengthen hair growth**

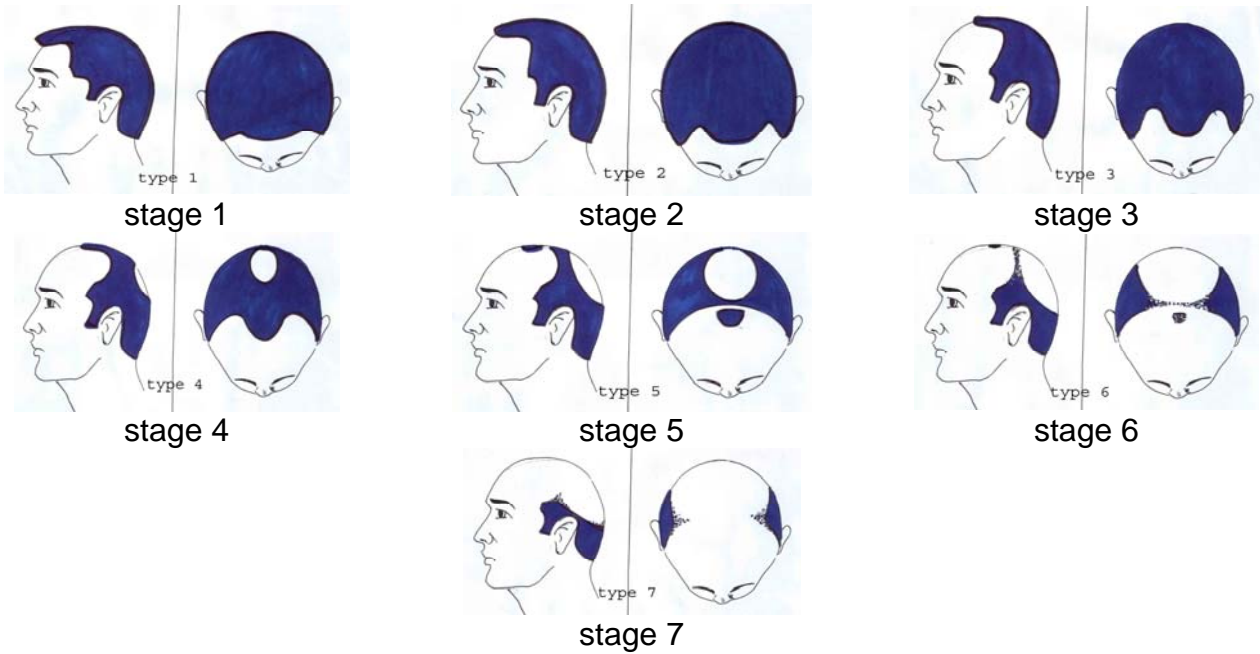

Eyebrow: For more thickness/density, strengthen in a natural way and stopping greying hairs, use Shaho Eyebrow Cream .

After washing and drying eyebrow, apply and rub Shaho Eyebrow Cream and leave for 3 or 4 hours, then wash out. Can be used daily.

FOR MEN:

Hair: Hair loss is shown in the following 7 stages:

Stages 1, 2 and 3:

Shaho Hair Tonic is used and suitable for these stages. Use two bottles and apply 3 times a week. If you wish to shave your hair, then it is better to use **Shaho "A" cream**. Use two 30ml or one 50ml. Apply 3-5 times a week. If used more times a week, it is even more effective.

Stages 4, 5, 6 and 7:

For the above more advanced hair loss stages, **Shaho "A"** must be used. Apply 3-5 times a week. In order to have better results during your remedy period, use one 50ml + one 30ml or, even better, to use two of 50ml.

Beard and moustache:

For exuberant growth, the strengthening and prevention of greying use 30ml of **Shaho Hair Cream** or **15 Shaho Eyebrow Cream**. After washing and drying, apply and rub Shaho Cream and leave for 3 or 4 hours.

APPLICATION:

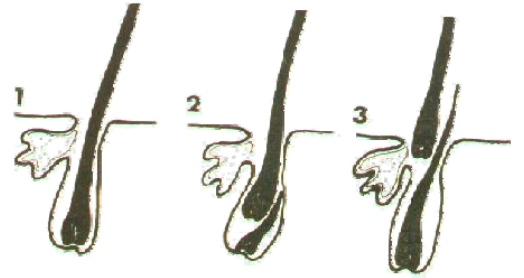

- 1) After washing and drying your hair, apply Shaho product on affected area and massage well for 10 to 15 minutes.
- 2) For better results before applying Shaho products softly massage your head for 5 to 10 minutes and again massage well after applying Shaho products.
- 3) Cover your head with a plastic cap or bag in order to heighten the temperature of scalp. This heat will increase the effectiveness of Shaho products.
- 4) Before slipping apply and leave Shaho product on your head for 8 to 12 hours and after, if you wish, wash out.

NOTES:

- 1) Shaho products should be used 15 - 30 times.
- 2) If hair loss reoccurs repeat treatment.
- 3) **Shaho products** are made from natural plants and have no side effects and can be used as many times as necessary.
- 4) Do not use Shaho product on parts of body, where you do not wish to strengthen hair growth.
- 5) For external use only.

The photos below explain how Shaho products work:

After using Shaho remedy, the hair cells will strengthen and become re-activated. Thin and fine hairs will be replaced by thicker growth.

ANNOUNCEMENT:

For all Scientific Centres, drugs manufacturers, specialist centres for cosmetics, related International companies and all markets in the world.

We are willing to work co-operatively according to the Law and regulations for exporting of Shaho products to all markets all over the world, so that we can help people with hair loss and skin disorder problems.
